SUBJECT: Permit Application Number NAN-2025-00034-TREC by Town of Maryland, in Schenevus Creek, Town of Maryland, New York.

Town of Maryland
Attn: Ron Wheeler
40 Main Street
Schenevus, NY 12155

Dear Mr. Wheeler:

On March 25, 2026, the New York District of the U.S. Army Corps of Engineers (Corps) received a request for Department of the Army authorization for the discharge of fill material into and/or the placement of structures in, under and over navigable waters of the United States. The proposed work includes bridge replacement including footer replacement and reconstruction. Impacts associated with the proposed work include 115 linear feet of perennial stream. The site is located within Schenevus Creek, in the Town of Maryland, New York.

The specific applicant-provided details are as shown on the attached permit drawings titled "Loft Road Bridge", prepared by McFarland-Johnson, Inc., and dated December 11, 2024.

Based on the information submitted to this office, and accomplishment of notification in accordance with the applicable federal requirements, our review of the project indicates that an individual permit is not required. It appears that the activities within the jurisdiction of this office could be accomplished under Department of the Army Nationwide General Permit (NWP) Number 3. The NWPs are prescribed as a Reissuance and Modification of NWPs in the Federal Register dated January 8, 2026 (91 FR 768). The work may be performed without further authorization from this office provided the activity complies with the permit conditions listed in Section B, No. 3, 19, and 22 Section C, any applicable New York District regional conditions, and any applicable regional conditions added by the State of New York. The 2026 NWPs in the

State of New York, including their regional conditions, water quality certifications, and coastal zone management concurrence statements are also available at:

<https://www.nan.usace.army.mil/Missions/Regulatory/Nationwide-Permits/>

A. The permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structure or work herein authorized, or if, in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the permittee will be required, upon due notice from the Corps, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the United States. No claim shall be made against the United States on account of any such removal or alteration.

This determination covers only the work described in the submitted material. Any major changes in the project may require additional authorizations from the New York District.

Care should be taken so that construction materials, including debris, do not enter any waterway to become drift or pollution hazards. You are to contact the appropriate state and local government officials to ensure that the subject work is performed in compliance with their requirements.

This verification is valid until **March 15, 2031**, unless the NWP is modified, reissued, or revoked. This verification will remain valid until March 15, 2031, as long as the activity complies with the terms of any subsequent modifications of the NWP authorization. If the NWPs are suspended, revoked, or modified in such a way that the activity would no longer comply with the terms and conditions of a NWP, and the proposed activity has commenced, or is under contract to commence, the permittee shall have 12 months from the date of such suspension, revocation or modification to complete the activity.

This authorization is conditional on the applicant's receipt of the required coastal zone management concurrence or waiver from the New York State Department of State (NYS DOS). No work may be accomplished until the required approval from NYS DOS has been obtained.

Within 30 days of the completion of the activity authorized by this permit and any mitigation required by this permit, you are to sign and submit the attached compliance certification form to this office.

In order for us to better serve you, please complete our Customer Service Survey located at <https://www.nan.usace.army.mil/Missions/Regulatory/Customer-Survey/>.
